

Outstanding Achievement in Statutory tests, 2015

Once again, we have been delighted with the performance of our children, which puts us well within the top 10% of schools in the country for both attainment and progress in all areas. A summary of the results is as follows:

In the Year 1 phonics screening test, 100% of our children passed. This puts us in the top 2% of the country.

In Year 2 (Key Stage 1) SATS: In all areas, our score put us statistically “Significantly Above” the average for the rest of the country.

KS1 SATS	All subjects	Reading	Writing	Maths
School Average Point Score	17.8	18.4	17.1	18.1
National Average Point Score	16.1	16.6	15.3	16.4

In Year 6 (Key Stage 2) SATS: In all areas, our score put us statistically “Significantly Above” the average for rest of the country. 100% of our children made the required 2 levels or more of progress in all areas. The Value Added score, which was also statistically “Significantly Higher” than national levels, was 101.3. All vulnerable groups achieved well.

KS2 SATS	All subjects	Reading	Writing	Maths	Grammar, Punctuation and Spelling
School Average Point Score	33.2	31.7	33.0	34.6	33.0
National Average Point Score	28.8	29.0	29.1	29.0	29.1

This outstanding outcome is result of the outstanding teaching and learning that takes place throughout every part of our school and I wish to thank our absolutely amazing team of talented, creative and aspirational teachers and support staff, our committed, hard working and aspirational children, our engaged and enthusiastic families and our supportive and encouraging governors. What an extraordinary outcome for a little rural school! Year after year, these impressive outcomes are sustained and indeed improved – this year we had the highest Average Point Score we have ever achieved!

As ever, I must remark that we are just as delighted with all other aspects of our children’s learning – their compassion and courage, their joy in life and their inspirational community spirit.
